Endnotes:

The Wells Fargo Community Change reports were designed by Reinvestment Fund in collaboration with Wells Fargo Foundation staff and grantees. The comparative areas are groups of Census Tracts selected based on similarities to the grantee's target area or some other comparative factor.

Calculations presented here were performed by staff at Reinvestment Fund and are based on public and proprietary data sources that have been licensed for use in PolicyMap.

School district data presented in this report are for the school district that the target area falls within, which in the case of this report is: Houston Independent School District. Other values presented in this report were calculated by summing the component Census Tracts or Census Block Groups. The 2010 Census geographies used for the target area include: 482013122001, 482013122002, 482013123001, 482013123002, 482013124001, 482013124002, 482013124003, 482013127001, 482013127002, 482013127003, 482013128001, 482013128002, 482013122003

Data in the individual school data section is provided for the 10 schools closest to the center of the target area. Math and reading proficiency trend charts are only provided if at least three years of data were available from the source.

Census educational attainment by race and ethnicity data are not available at the block group level. For those groups with target areas made up of block groups, a tract was included if more than 50% of its area was included in the target area. 2000 Census Tracts used in this section of the report include: 48201312300, 48201312400, 48201312200, 48201312800, 48201312700; 2010 Census Tracts used in this section of the report include: 48201312300, 48201312200, 48201312400, 48201312800, 48201312700.
